

HIKVISION TRANSPARENT LED

Open to possibility, clear for visibility

PIXEL PITCH OPTION: H: 3.9 MM | V: 7.8 MM
BRIGHTNESS OPTIONS: 5,000 NITS, 2,000 NITS

High transparency

High transparency up to 70% ensures good indoor lighting and imaging with rapid heat dissipation, while maintaining the original building appearance.

High brightness & wide FoV

High brightness and 120-degree wide field-of-view meet a wide range of needs and ensure great visibility in show windows.

Ultra flexibility

Ultra flexibility and easy installation, with three screen sizes to support creative splicing and suit any display requirements.
